

El Formosa - Taiwan Scenery Project Part 3

1. Introduction

Hengchun airport (RCKW) is located at the southern tip of Taiwan, which is the closest airport to the Kenting National Park. This area has been well-known for its dazzling bright sunshine, azure blue seawater, and clean shining sand beach that attracts millions of both domestic and foreign tourists every year. With a famous landscape nearby, this former military airbase has been transformed into important civil airport. By Gmax technology, the whole new terminal, parking lots, relative buildings and major roads in Hengchun Peninsula are constructed. Furthermore, Taiwan's very first light tower, Eluanbi Light Tower, is also built in this package. Require el_formosa_part1.zip.
