

El Formosa - Taiwan Scenery Project Part 4

1. Introduction

Nangan (RCFG) and Beigan (RCMT) are regional airports in Matsu. Matsu is one of Taiwan territory which consists of more than 10 islets with a total area of 28.8 square km. Due to its sensitive position, Matsu used to be military fortress. Even China government continues threatening Taiwan, Matsu is now developing its tourism. Nangan airport is a whole new one since 2003 which stands next to stunning cliffs. Beigan airport has been known for short runway that breaks through a beach. With Gmax technology, this package provides two airports with several improvements based on Part1. Require el_formosa_part1.zip.

2. Features

1. For FS2004 Only.
2. Whole new Nangan Airport (RCFG), including terminal, tower, buildings, trucks, parking lots and more. All based on real airport layout.
3. Newly constructed Beigan Airport (RCMT), including new terminal, tower, buildings, trucks and more. All based on real airport layout.
4. Add city and roads to Nangan area.
5. Beigan has brand new coastlines, flattens, roads, and landclass modification to show the real condition.
6. Both airports have correct radio navigation aids and ATC call sign. It calls “Nangan Tower” and “Beigan Tower” now. Voicepack update is available. As to aeronautical data you may refer to <http://worldaerodata.com/> for further information.

3. Installation

NOTE: The installation involves modification of the default scenery that MAY AFFECT DEFAULT OR OTHER SCENERY. You BETTER have basic knowledge about FS scenery structure and CAREFULLY follow the instruction.

1. Before installation, please make sure you have correctly installed Taiwan Scenery

Part1 previously. This scenery does NOT compatible with default ones. Please download it from AVSIM. (File name is el_formosa_part1.zip)

2. There are five folders in the zip file. RCMT and RCFG are main scenery folders. "Replacement2" is for default replacement. "Voicepack" is for editvoicepack update. "Remove2" contains backup files.
3. Go to fs9/scenery/asia/scenery folder, remove AB980220.bgl and FL980220.bgl first and backup AB979220.bgl and FL979220.bgl. Then replace these two with files provided in "Replacement2".
4. Now use EditVoicepack 3.1 or higher to import and update files in "Voicepack" folder. You can also update it from the latest update files online which already contain this modification. If you don't have this software. Please download it from <http://www.editvoicepack.com/>
5. Install RCMT and RCFG in normal procedure:
 - a. Unzip these two scenery folders to where you usually install your scenery.
 - b. Add both folders to scenery library in FS scenery setting.
 - c. Restart FS9
6. DONE!!

4. Tour Guide

Just select RCFG or RCMT in "GO TO AIRPORT" menu and enjoy it!!

5. Legal

This scenery is a freeware for all Flight Simmers. We do not give our permission to anybody to sell this package or any part thereof or to upload it to any other server, including that charges for downloads or to include it on any media that is sold.

We will NOT take any responsibility for potential damage or loss to any user's computer or other property as a result of the usage of this scenery.
