

El Formosa - Taiwan Scenery Project Part 9

1. Introduction

The Pratas Islands (aka Dong-Sha Islands) is located in northeastern South China Sea, 370NM southwest of Taipei. The islands are made up of coral atolls and reef flats which cover round area in 15NM diameter. Once upon a time, Dong-Sha had one of the most beautiful coral atolls in the world. Ironically, during these years, those priceless resources have been totally devastated by China and nearby countries' fishermen who illegally poison, fry and electric shock the fish extensively. Coral Paradise has become deadly graveyard.

Dong-Sha Islands now have one airport (Z28X) with a 5000 feet runway. Only charter flights can be seen between Taiwan and this island. Today, we present this island by photo-real and Gmax technology to show you that how stunning this place is. Hope you enjoy and if possible, show your consideration for this lost paradise.

2. Features

1. For FS2004 Only.
2. Photo-real Pratas Islands, including matched waterclass.
3. GMAX Prata Islands airport, including AFCAD, building, autogens and more.

2. There is one folder in the zip file. Just install the scenery in normal procedure:
 - a. Unzip RCLM folder to where you usually install your scenery.
 - b. Add this folder to scenery library in FS scenery setting.
 - c. Restart FS9
3. DONE!!

4. Tour Guide

Pratas Islands (Z28X) is a VFR airport. Only charter flights flown for military and scientists can be seen from Taiwan. DASH-8 and C-130 are expected to operate on available routes. You can commence your flight from Kaohsiung Intl. (RCKH, distance 231nm, heading 244), or Sungshan Airport (RCSS, distance 373nm, heading 229). Due to lack of navigation aid, you should be careful with your navigation and visually identify the island as soon as possible. Have fun!!
